About the Author

Artemakis Artemiou is a Senior SQL Server and Software Architect, Author, and a former Microsoft Data Platform MVP (2009-2018). He has over 15 years of experience in the IT industry in various roles. Artemakis is the founder of SQLNetHub and TechHowTos.com. Artemakis is the creator of the well-known software tools Snippets Generator, DBA Security Advisor and In-Memory OLTP Simulator. Moreover, he is the author of many eBooks on SQL Server. Artemakis currently serves as the President of the Cyprus .NET User Group (CDNUG) and the International .NET Association Country Leader for Cyprus (INETA). Artemakis's official website can be found at aartemiou.com. You can follow Artemakis on Twitter at https://twitter.com/aartemiak.

Some of the online channels where you can find Artemakis are:

- SQLNetHub
- Official Website
- The SQL Server and .NET TV
- TechHowTos.com
- Twitter
- Cyprus .NET User Group

Contact the Author
You can contact the author using the contact methods on www.aartemiou.com and www.sqlnhub.com
To all of those who never give up chasing their dreams,
who are never satisfied with mediocrity in life,
who create opportunities from scratch,
who always try to be the best, with respect and support to their fellow human being,
who never stop exploring and never stop believing that anything is possible.

# Table of Contents

## Introduction

## Chapter 1  Programming
- Searching for Keywords in SQL Server Jobs 15
- Sequence Object-Like Functionality in SQL Server 16
- Sequence Objects in SQL Server 17
- Retrieving Only the Date from a Datetime Value in SQL Server 18
- Updating SQL Server Tables Without Causing Blocking 20
- Using the NOLOCK Table Hint 21
- Dynamically Generating T-SQL Statements 22
- Segmenting Strings in SQL Server 24
- Eliminating Blank Spaces in SQL Server Tables 25
- New Date-Related Functions in SQL Server 2008 30
- Commonly Used String Functions in SQL Server 32
- DATETIME2 vs DATETIME in SQL Server 38
- The TIME Data Type in SQL Server 40
- The DATE Data Type in SQL Server 40
- The MERGE Statement in SQL Server 41
- Divide by Zero Error Encountered 42
- String or Binary Data Would be Truncated 45
- Row Constructors in SQL Server 48
- Table-Valued Parameters (TVPs) in SQL Server 50
- How to Establish a Simple Connection from a C# Program to SQL Server 52
- The STRING_SPLIT Function 53
- Built-In JSON Support in SQL Server 57
- Temporal Tables 60
- Summary 66

## Chapter 2  Working with Unstructured Data
- How to Import and Export Unstructured Data in SQL Server - The IMAGE Datatype 68
- How to Import and Export Unstructured Data in SQL Server - FILESTREAM 76
- How to Import and Export Unstructured Data in SQL Server - FileTables 81
Chapter 3  Data Access
- The ADO .NET Entity Framework 90
- The Entity Framework: Introduction 91
- The Entity Framework: Inheritance 109
- Data Access and Consumption with WCF Data Services and PowerPivot 121
- Summary 139

Chapter 4  T-SQL Tips 140
- Listing all Tables of a Linked Server's Database 141
- Retrieving Security-Related Info for SQL Server Logins 143
- Inserting Leading Characters to a String 144
- Getting all the Records from all Tables in all User Databases 146
- Retrieving SQL Server Instance-Related Information 147
- Retrieving Database File Sizes 148
- Summary 149

Chapter 5  Special Topics 150
- Where are Programmability Objects Stored in SQL Server? 151
- Internal Query Processor Error: The query processor could not produce a query plan 155
- Executing Heavy Set-Based Operations Against VLDBs in SQL Server 156
- Using the OUTPUT Clause: A simple Data Archiving Example 158
- Using Computed Columns in SQL Server 163
- Where are Temporary Tables Stored in SQL Server? 166
- Handling NULL and Empty Values in SQL Server 168
- The multi-part identifier ... could not be bound 173
- Table-Level Locking Hints in SQL Server 175
- Handling NULL Character \x00 when Exporting to File Using BCP 177
- The conversion of a char data type to a datetime data type resulted in an out-of-range datetime value 181
- Error Converting Data Type Varchar to Float 182
- Undocumented Stored Procedure sp_MSforeachdb 184
- Using the "GO" Command in SQL Server 185
- Summary 187

Chapter 6  Miscellaneous 189
- Accessing Reporting Services Using a Fully Qualified Domain Name 190
- Transferring Ownership of All Database Objects Back to dbo 191
- There is insufficient system memory in resource pool 'internal' to run this query 194
- Mastering the Data World: Extracting Knowledge from a DBMS 196
- Argument Data Type Ntext is Invalid for Argument... 198
- Software Systems in the 21st Century: Integration is the Key 200
- Changing the Database Owner in a SQL Server Database 202
- SQL Server 2008 Collation Alignment with Windows Server 2008 203
- How to Suppress the "N Row(s) Affected" Output Message in SQL Server 204
- Summary 206

Appendix A 207
List of Listings 221
List of Figures 225
List of Tables 229
